Newark 2 N. Jersey

Dear Yancey:

Since writing you yesterday, I have talked to Pompey, and found out the contracts for the men must be notarized, and there must be two for each man. I did not have the names of the men at that time.

I received your cable this morning with the names of the men, so I am enclosing the contracts with the notary's seal. I am going to New York now to arrange for their passage.

I do hope they will be able to get passage soon, as we don't want to fall back in the league race. If they are all you say, they are just what we need.

Keep track of all the money you are spending as I know it cost something everytime you move.

In case my letter of yesterday has not reached you yet, the team's headquarters in Newark is The Grand Hotel 78 West Market St. If they should get lost they can taxi there. If you possibly can let me know when they will arrive we will meet them. I guess they will have to come in at La Guardia airport in New York. I will find out if they make any stops at Newark Airport. I am almost sure they do not, as it is an army airbase now.

If you have to call me any time the phone number is Market 3-2641 and reverse charges.

I hope this is taking care of everything, and I will be looking to hear from you. Thanks for everything.

Very Truly Yours
